**** The aids and appliances list (MiGel), the drug formulary with tariffs, and the Specialty List can be accessed at www.bag.admin.ch

Co-payment.

- Basic insurance:** No co-payment (deductible, retention fee, contribution to hospital costs) for any maternity benefits.
No co-payment for general benefits in the event of illness between the 13th week of pregnancy and 8 weeks following the birth.
- Supplementary insurance:** Deductibles and retention fees may apply, depending on the insurance product that has been chosen.

Newborn.

If you register your baby before they are born, you will not have to fill out a health declaration, and your newborn will be well insured right from birth. Your obligation to pay premiums does not start until the month of the birth, however. Put the right insurance package together for your newborn, and you will benefit from a family discount. Your agency will be pleased to advise you.

Insurance cover.

An addition to your family marks a new phase of your life and changes what you need from your insurance. As the following examples show, it may be worth amending your insurance cover:

- You may wish to include accident risk in your basic insurance if you (temporarily) give up work (this is not necessary during the statutory maternity leave period).
- Financial risks associated with an accident (e.g. modifications to your home necessitated by a disability, loss of parental income).

This information sheet is intended to give you a general overview of the insurance available and is in no way complete. The actual details of the various insurance plans offered can be found in the statutory provisions of the Federal Health Insurance Act (KVG), the Federal Insurance Contract Act (VVG), the General Insurance Conditions (AVB), and the Special Conditions (SB), which determine the obligation of the CSS Group to render services.
