

# Hospital list with selected service providers for myFlex Hospitalisation Insurance

## Premium discount

CSS Insurance grants clients who opt for this list a generous premium discount of 20%.

## Update to hospital list

CSS Insurance may add new hospitals to the List of hospitals with selected service providers (hereinafter referred to as "the hospital list") at any time in accordance with Art. 6.4 AVB. If a hospital is added to the hospital list prior to the start of a new year, insured persons who had received treatment in that hospital before it was added to the list will not have any costs reimbursed retroactively.

Hospitals may only be removed from the list with effect from 31 December of each year. If this happens, it is possible to switch to the insurance option without a restricted choice of service providers in the chosen category of insurance. This change can be made without having to fill out another health declaration. If a hospital closes or merges with another hospital, the hospital list may also be amended before 31 December.

## Aargau

<b>Aarau</b>	Kantonsspital Aarau

<b>Herisau</b>	Spital Herisau

## Appenzell Innerrhoden

<b>Weissbad</b>	Klinik Im Hof
-----------------	---------------

CSS Insurance makes every effort to offer clients a balanced and attractive list of hospitals.

## What you need to know before you are admitted to hospital

Notify your doctor that you have taken out myFlex Hospitalisation Insurance with the hospital list.

Before you are admitted, ask CSS Insurance whether or not the hospital that you or your doctor would like to use is included in CSS Insurance's hospital list, and what costs CSS Insurance will assume for your stay in hospital.

The current hospital list can be requested from the Contact Centre, accessed at [www.css.ch/downloads](http://www.css.ch/downloads), or viewed at any CSS Insurance agency at any time.

The hospital list does not apply in the case of emergencies or if, for medical reasons, the treatment cannot be given in any of the hospitals listed.
